Well, it's been a few days since I drove to Playa Bonita and I found out about that beautiful-unusual place. However, the locals in Limón told me that I couldn't go to the beaches on the south, if I haven't visited "Playa Moin" as one of the destinations in my Costa Rica [travel vacations](#) agenda; So, I did.

Moin is about five minutes from Playa Bonita, but it's a completely different scenario. As [I told you on my first piece](#), Playa Bonita is getting attacked by people making restaurants, and buildings around the beach; well, Moin is the opposite.

Moin remains as a virgin place where there are barely places where to eat or where to shop; that's one of the attractions in Costa Rica; the fact that the sand and the sea.

The [all&nbsp;inclusive vacations](#) Costa Rica probably won't take you to Moin, but the street to get there is between the beach to one side, and a sweet water river on the other. If your thing is to have a Costa Rica adventure travel, then the trip thru the river via a small boat is for you.

To be honest, I wasn't expecting to find something like this near a beach, so I went down to surf, have a good time, but late in the afternoon I took the trip down the river, you know, to see something new.

This beach is something different. Black sand, with a lot of tree sticks around, and at least 10 kilometers of beach with very, and I mean very little people around... which to me is awesome.

After dropping a few waves in Moin, I stopped in one place, kind of an “inside-dark restaurant” where I ate a local food named “Rice And Beans”; it’s made with coconut milk, and to it’s the greatest meal I have ever tasted in the world
